**Baths, shower trays and
washbasins made of
glazed titanium steel.**

Made of titanium steel,
glass, and the liberty of
rethinking things.

Since 1952, we have been making high-quality bathroom elements out of glazed titanium steel here in Delbrück. This all-natural material is not only the fabric, but also the origin of our ideas. We love experimenting and blazing our own trail.

With our special deep-drawing and enamelling processes, we are constantly redefining the limits of what is feasible. From the first floor-level shower area to the radical minimisation of the bath and washbasin rim to the maximum radius of a circular bath. This is how sensuous objects with history and character are created. And along with perfect functionality and reliability, they will also provide you with aesthetics, relaxation and comfort. Every day. For at least 30 years. We guarantee it.*

We would like to inspire you with our Lookbook, to encourage and entice you to venture to try more. Because we believe in your bathroom.

Thilo C. Pahl
Managing Partner

*Further information on our guarantee terms at www.bette.de

As though shaped by water—The BetteLux collection is characterised by a flowing, natural design that is formed from an organic basic shape, with extremely delicate outer rims. This elegant line looks wonderfully at home anywhere. The voluminous interiors of these baths and washbasins appear effortless in their perfection. Minimalism with perfect craftsmanship.

BetteLux Design: Tesseraux + Partner

Almost floating—Powder-coated steel frames support the **BetteLux Shape** baths and washbasins as though they are weightless. The frames emphasise the full beauty of the organic bath design. A specially designed overflow, together with other sophisticated details—such as the precise corners of the bath forming a flush finish with the edge of the frame—reinforce the idea of perfect minimalism.

BetteLux Oval Couture Design: Tesseraux+Partner

Steel can wear anything—The BetteLux Oval Couture line elevates the bathroom fitting to a lifestyle object. The first fabric-coated baths and washbasins bring comfort into the bathroom and bathroom comfort into your home. The body of these baths and washbasins is manufactured conventionally from enamelled titanium steel, yet the surround is made from woven waterproof and climateresistant fabric. The unique advantages of enamelled titanium steel are elegantly fused with the feel of fabric and a cosy look.

BetteLoft Design: Tesseraux+Partner

Expressive geometric lines—The BetteLoft collection is based on the fundamental design of four tapered surfaces that meet up together. Precise contours form the perfect frame for the voluminous interiors of these baths and washbasins. Perfect craftsmanship and an extremely small corner radius underline the expressive character of this minimalistic design.

BetteLoft Ornament Design: Tesseraux+Partner

Comfort with a distinctive design—The BetteLoft Ornament line of baths and washbasins is the perfect expression of titanium steel's outstanding versatility. Its expressive outer design accentuates the straight lines of the inner well, which are echoed in the geometric pattern. The fascinating interaction between light and shadow lends this bathroom collection outstanding luminosity and vibrancy.

A statement of purism—The baths and washbasins in the **BetteArt** collection bring a sculptural effect to the room. The shapes of the inner and outer walls have been skilfully fused together to create a seamless design with extremely narrow sides. This results in highly symmetrical designs with soft lines, creating a special ambience in any bathroom.

BetteArt Design: Tesseraux + Partner

Special waste and overflow system, with integrated filling on request.

Relaxed symmetry—The **BetteComodo** line combines geometric design with smart ergonomics and exceptional comfort. This collection is recognised for its perfect, oval design and generous depth.

BetteComodo Design: Tesseraux+Partner

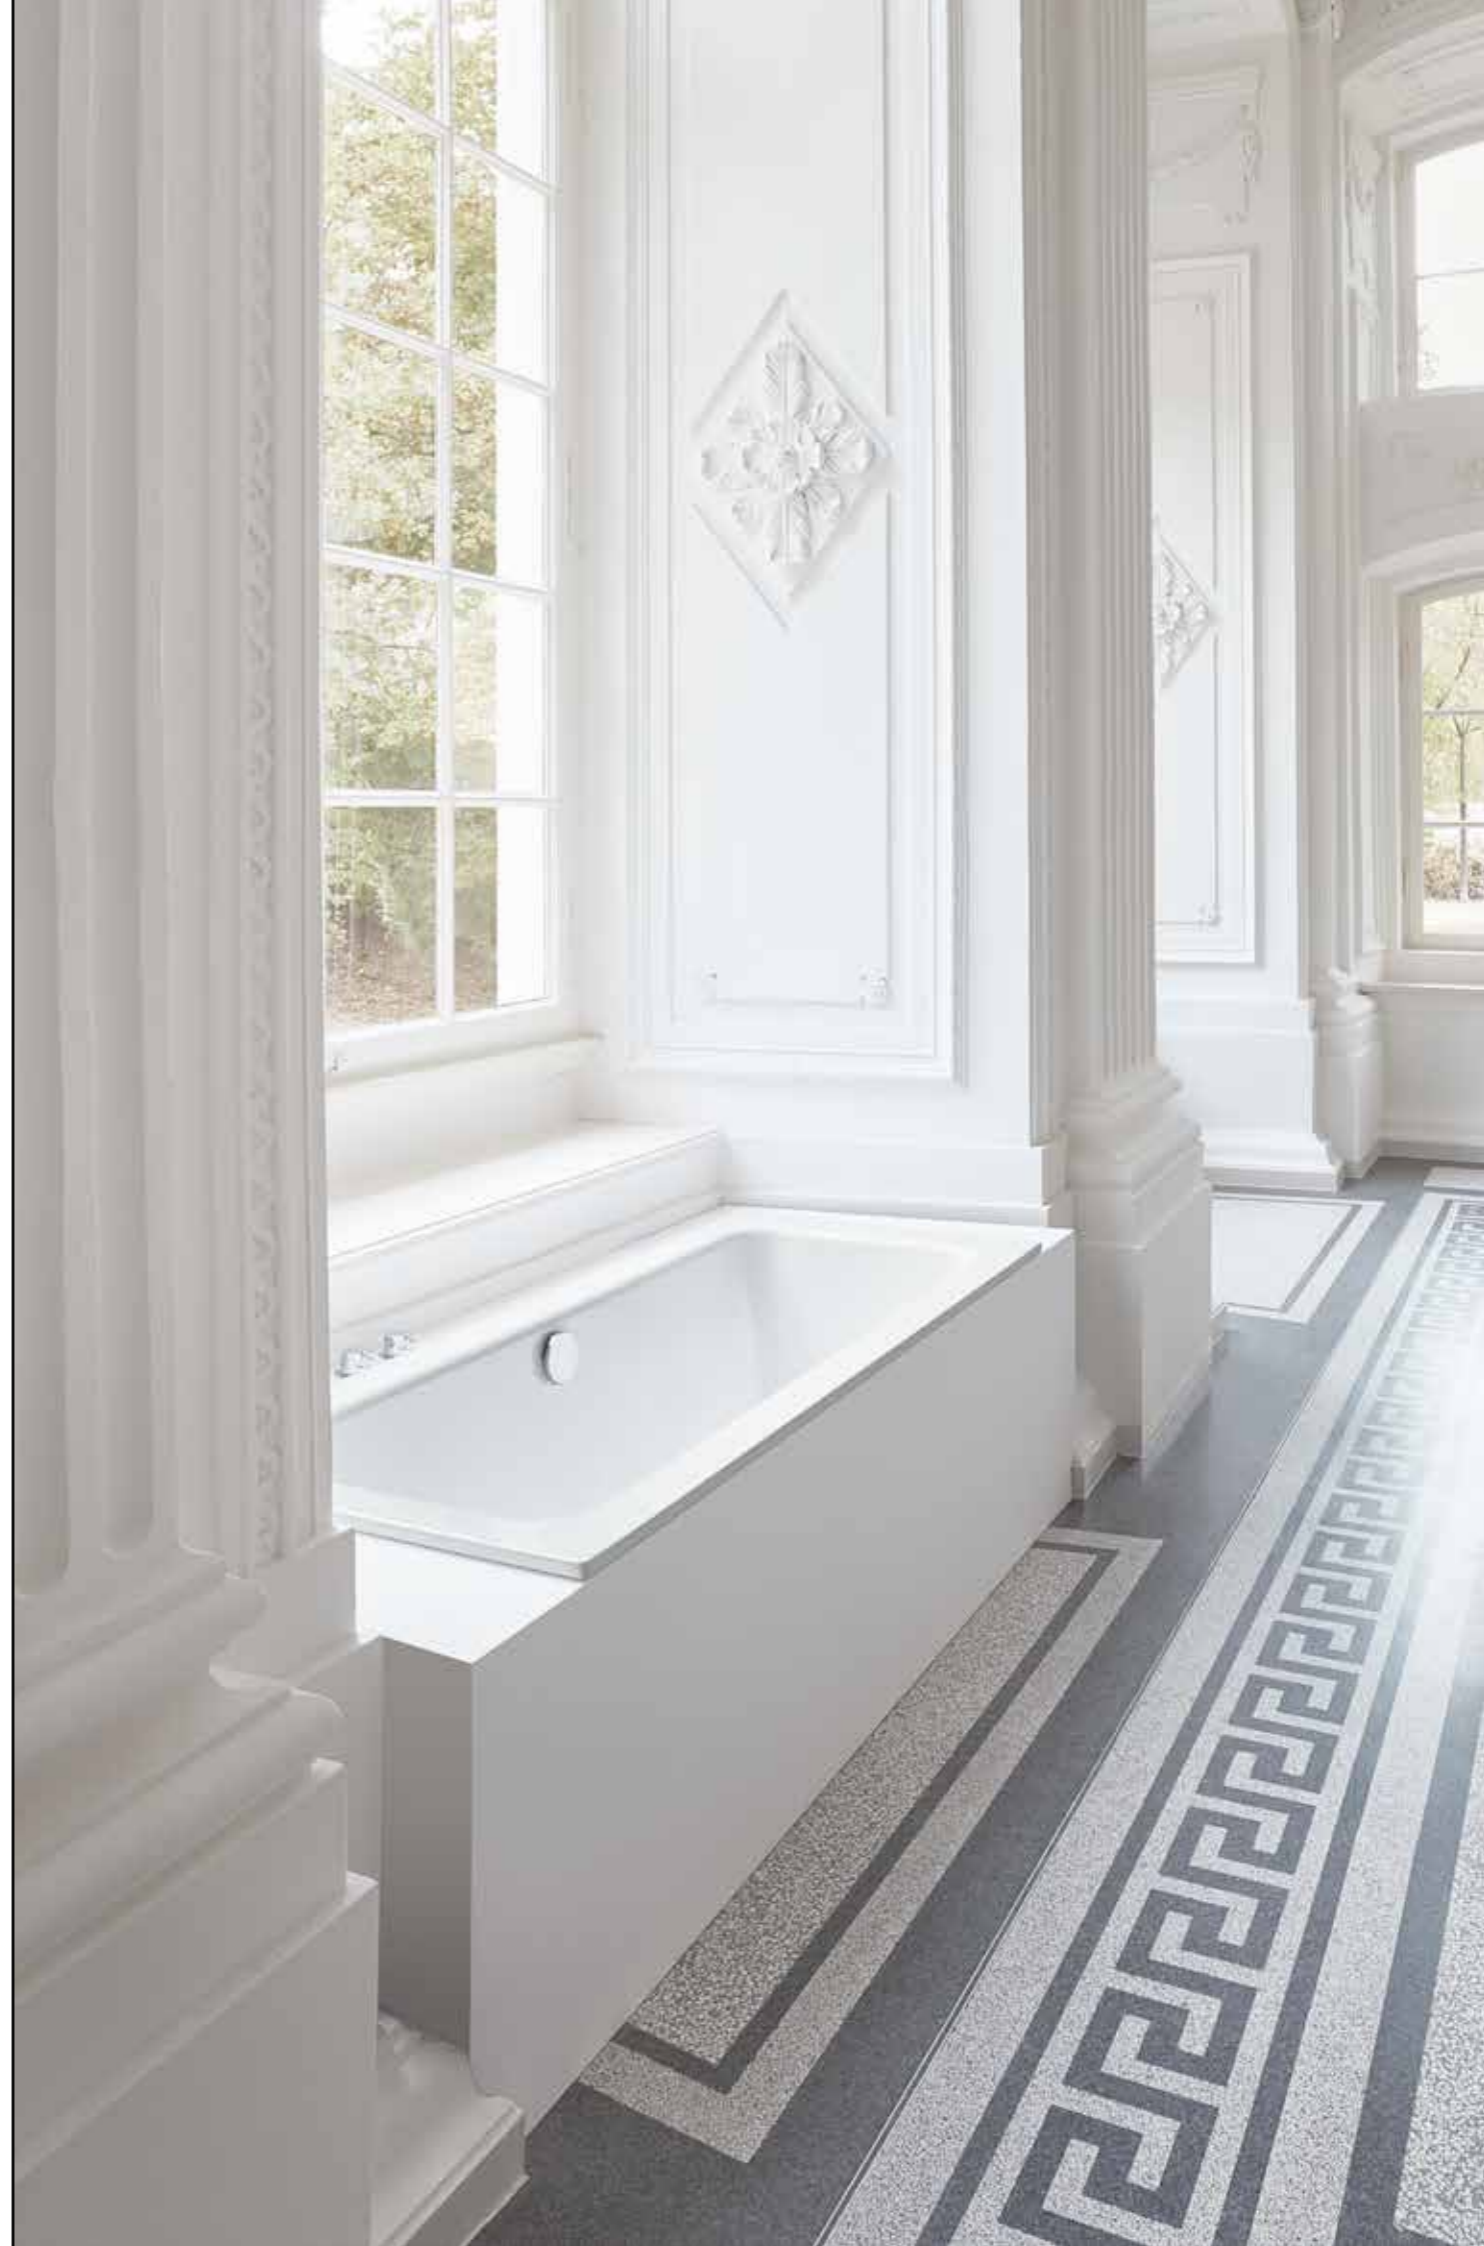

A collection for distinct bathroom designs—BetteOne is a bathroom concept that incorporates glazed titanium-steel baths and washbasins. The key features of this collection include the wide circumferential rim and geometric interior lines. With a distinct design language, BetteOne is available in a diverse range of dimensions and models. Timeless, universal and simply beautiful.

DESIGN PLUS

BetteOne Design: Tesseraux+Partner

Clear design inspired by nature –

BetteEve combines organic form with elegance and generosity. The oval-shaped interior body with symmetrical backrests provides a special level of wellness when bathing. The rectangular exterior adds linear accents to the soft bath line with the extremely delicate rim height of only 20 millimetres. The pleasantly wide storage surfaces of this fitted bath provide additional comfort. The centrally positioned waste fitting makes bathing à deux just as comfortable.

Pure form and size – Immerse yourself and relax completely. The circular **BettePond** is spectacular in form and size. Its exceptional diameter of 1500 mm is made possible by the high stability of glazed titanium steel.

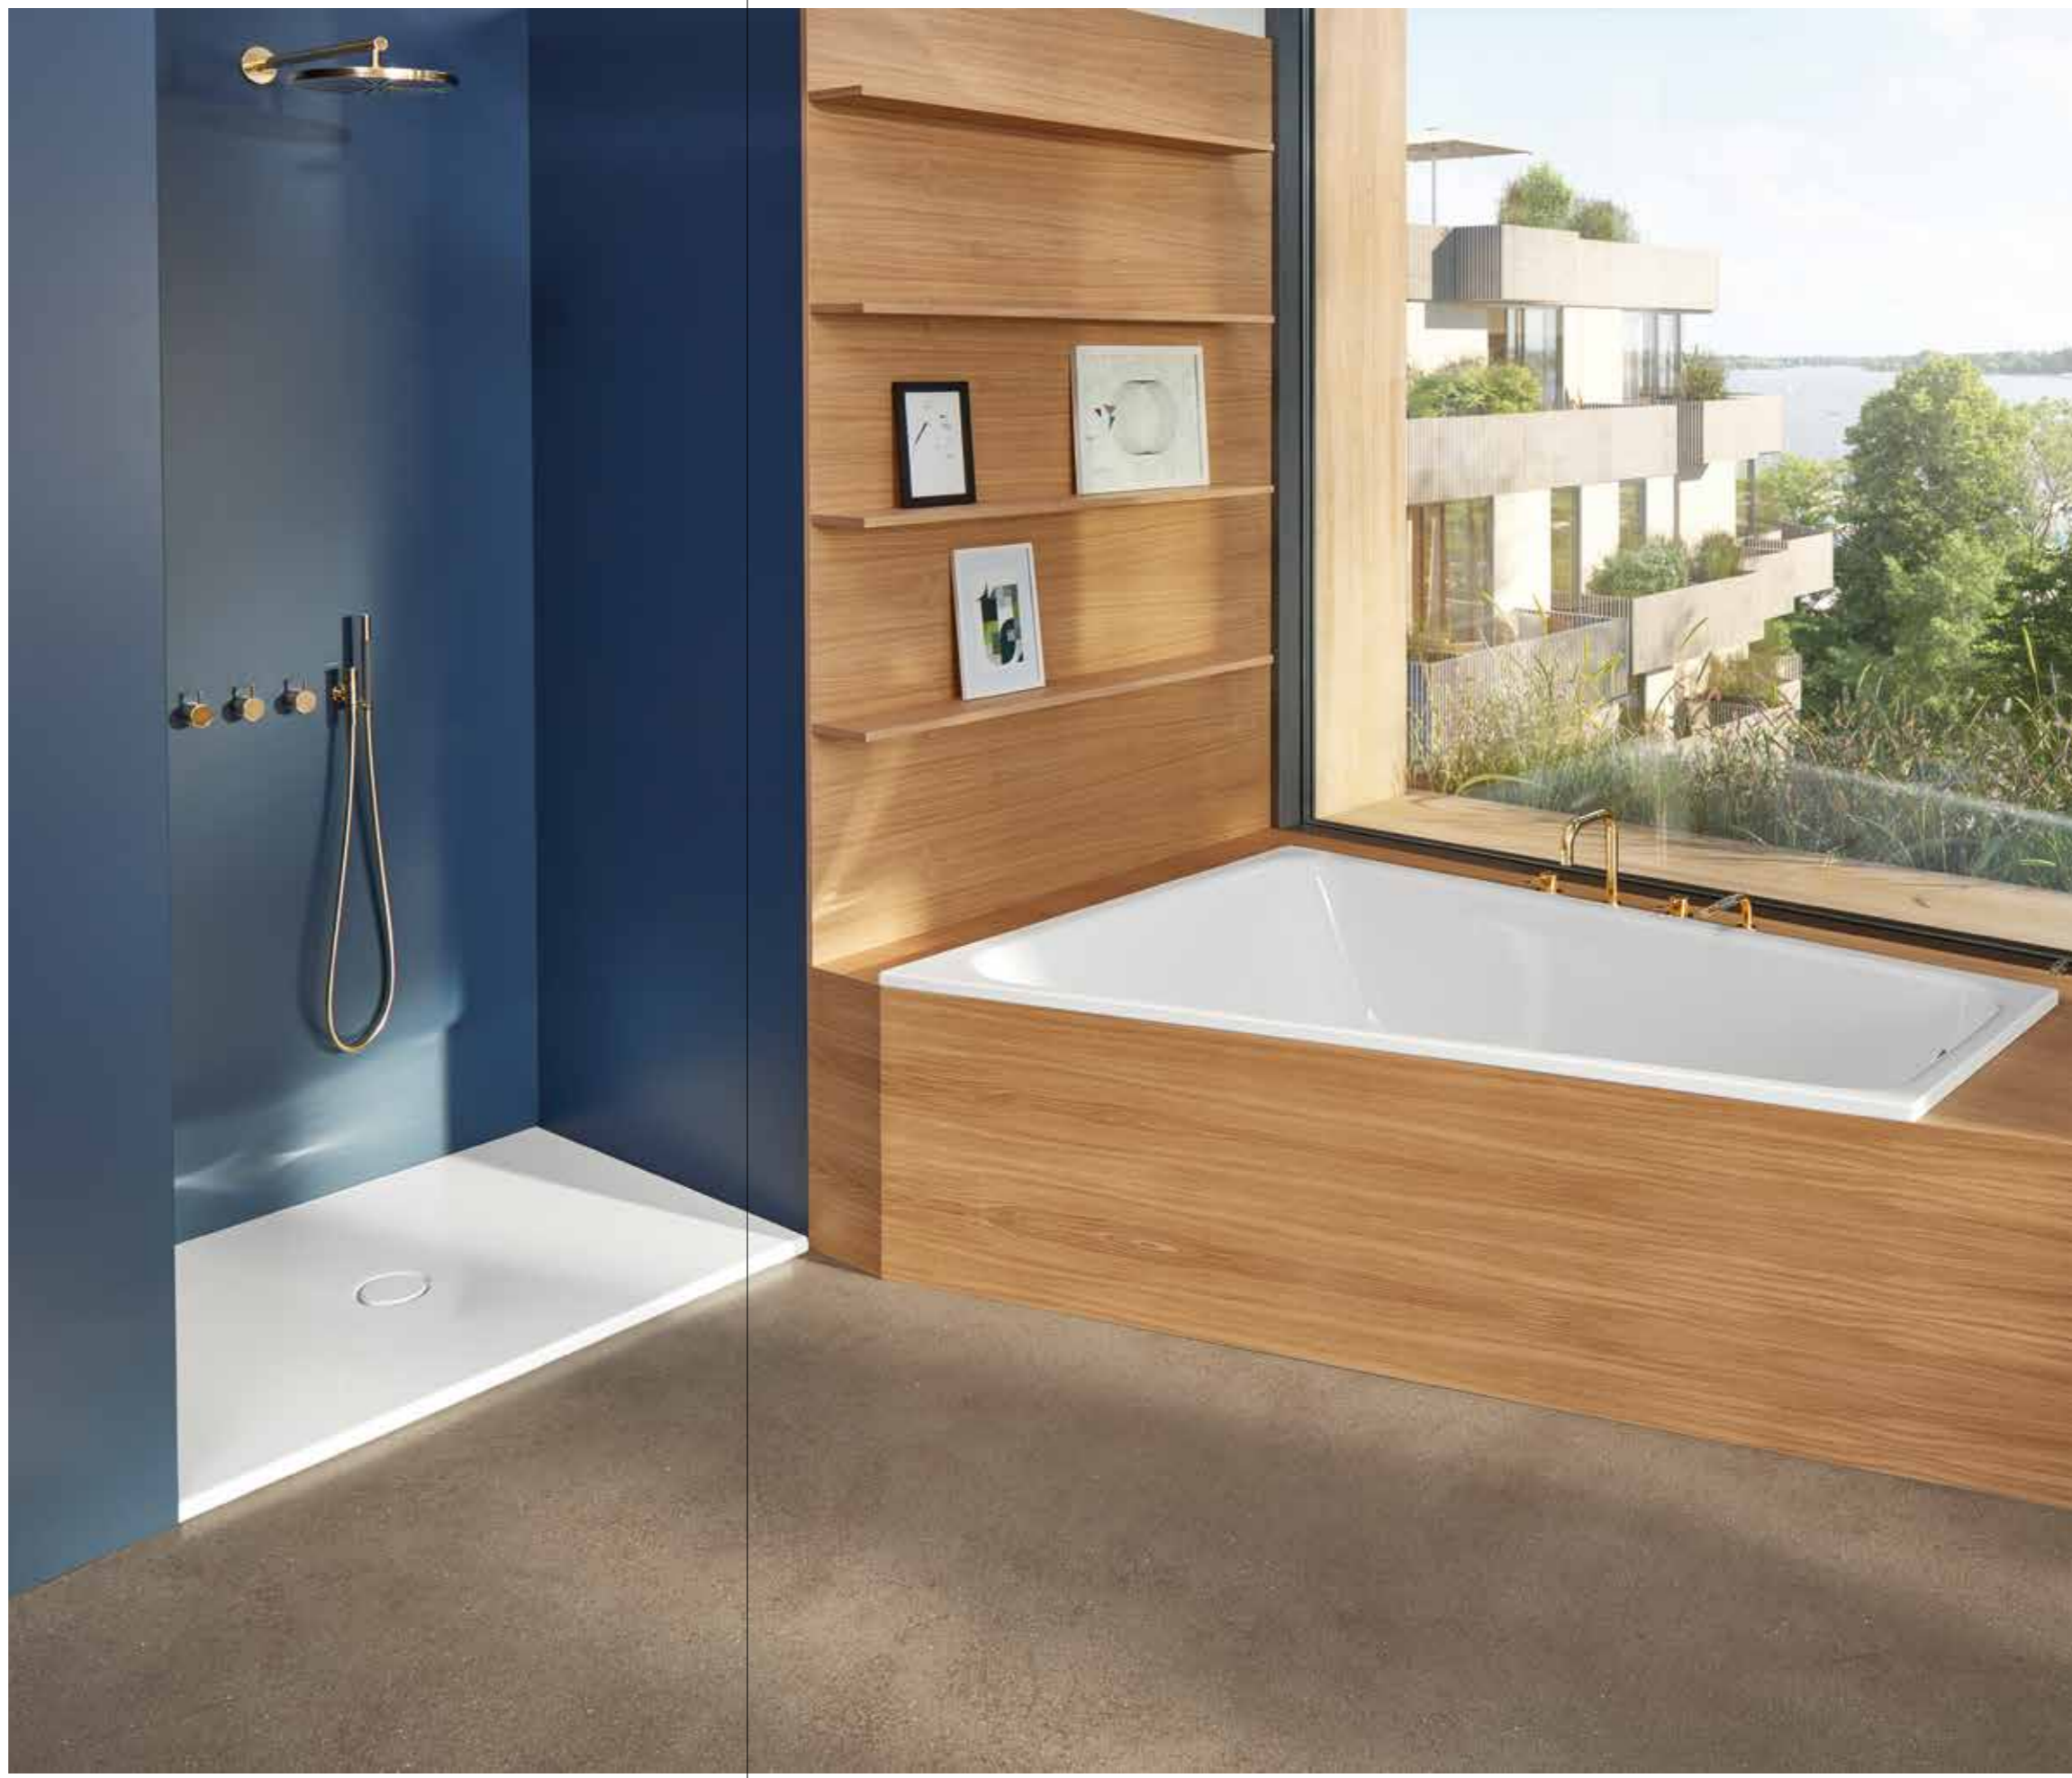

BettePond Design: Tesseraux+Partner

The **BetteSelect** bath series combines clear, elegant design with a high level of comfort, flexibility and abundant creative freedom. At an attractive price. This makes it the ideal solution for the most diverse requirements. The **Duo version** is the perfect bath for two. The symmetrical shape and comfortable backrests are characteristic features. The central position of the outlet makes it particularly comfortable for bathing for two.

Flexibility and charisma – The **BetteSpace** combines desire and reality. Its modular trapezoid shape has a wide back angle, and tapers towards the foot end. Thus it introduces linearity and maximum comfort into any size of bathroom. The puristic space-saving bath is available in three versions: as the single bath – BetteSpace S, as the BetteSpace M – shower/bath with a comfortable standing area, and as the duo bath BetteSpace L, with room for two bathers to sit side by side.

BetteSpace Design: Tesseraux+Partner

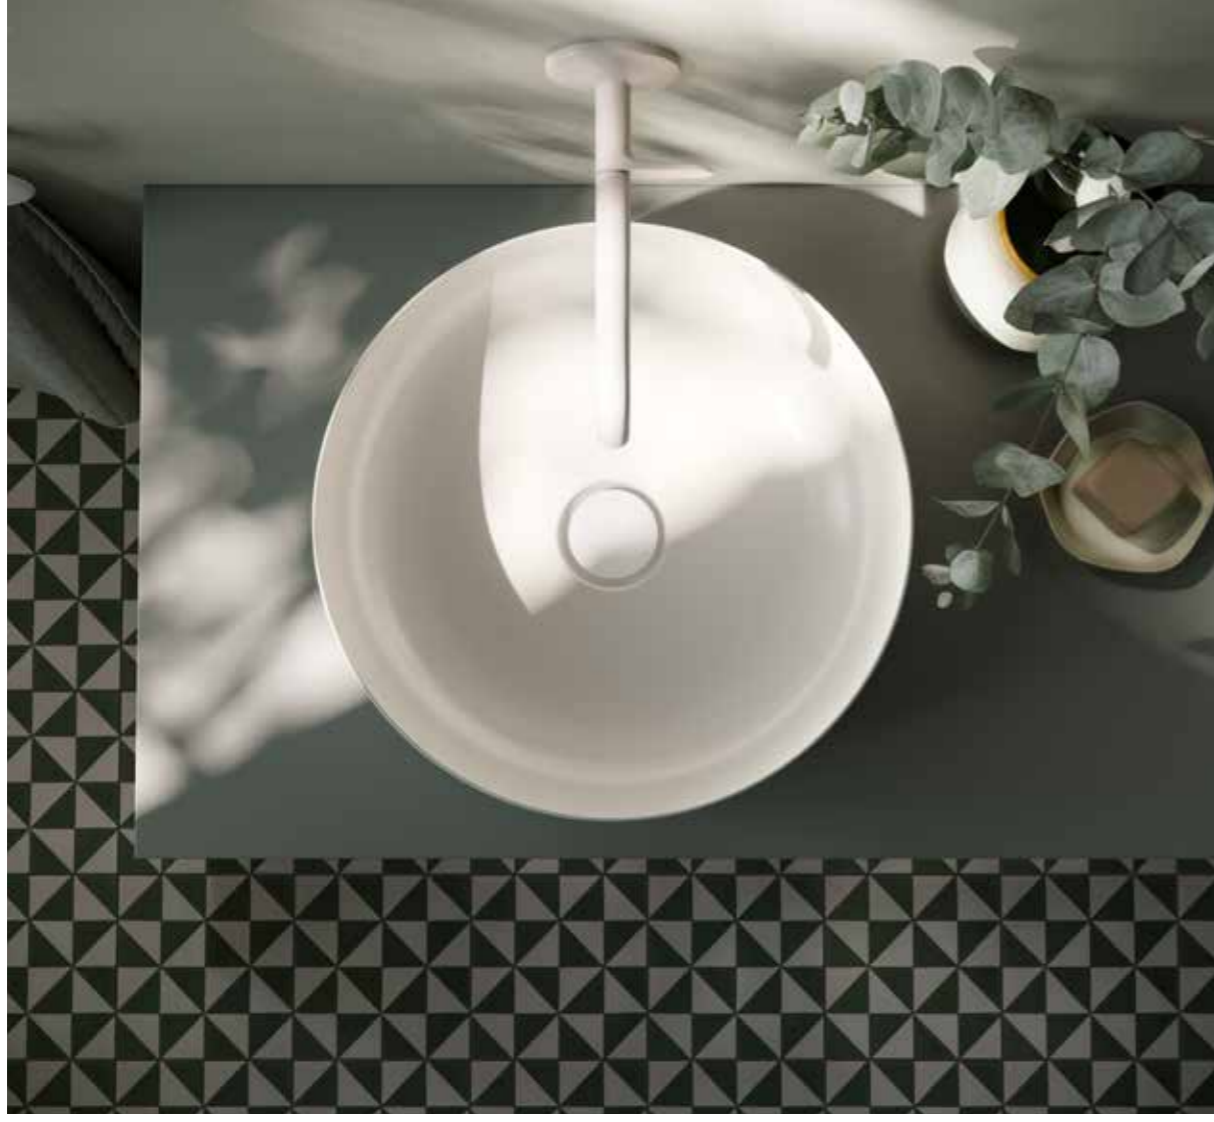

BetteFree, BetteOcean Design: schmididem design

The **BetteBalance shell** sums up the advantages of glazed titanium steel: The material is robust, suitable for everyday use, hygienic and easy to clean. At the same time, it allows for a filigree form language, clear lines, an almost weightless lightness in design. This is expressed by the name BetteBalance. The natural materials steel and glass make the product sustainable. In addition, the washbasin series is available in many colour variants.

BetteBalance Design: Tesseraux+Partner

As soft as porcelain, as hard as steel – The combination of clear design language and filigree materiality gives the **BetteCraft** washbasin an elegant self-evidence. Every shell is hand-made individually from titanium steel in an extensive process, first shaped and then glazed on both the inside and outside. The thin side walls that taper towards the top give the generous shape a delicate and organic effect.

BettePond Design: Tesseraux+Partner

The new **BetteAir** is the world's first shower tile. Sounds revolutionary? It is. Because the BetteAir is design and progress in a nutshell. It is pared down to the essential and provides space for visions. And of course, it can be integrated in any architectural design or staged as a spectacular eye-catcher. The pore-free finish ensures absolute hygiene in the bathroom. The modern drainage system combines pure form with innovative technology. And the refined edge ensures more efficient handling in floor-level installations directly on screed. So BetteAir truly is a development. It is flatter, and is even quicker and easier to fit. Exquisite material and smooth comfort: conspicuously inconspicuous.

DESIGN PLUS

BetteFlat is a shower area made of glazed titanium-steel, which we have developed especially for the standard-compliant barrier-free furnishing of apartments in the housing industry. The product not only allows for the required movement spaces, but the surface also provides slip resistance according to rating class B. The accessibility is certified by DIN CERTCO. BetteFlat can be planned in small bathrooms where the movement areas of the shower, washbasin and WC overlap, as up to 50 percent of its surface can be added to the required area. It is suitable for bathrooms for immobile people. And for bathrooms specifically designed for young families, as well as seniors.

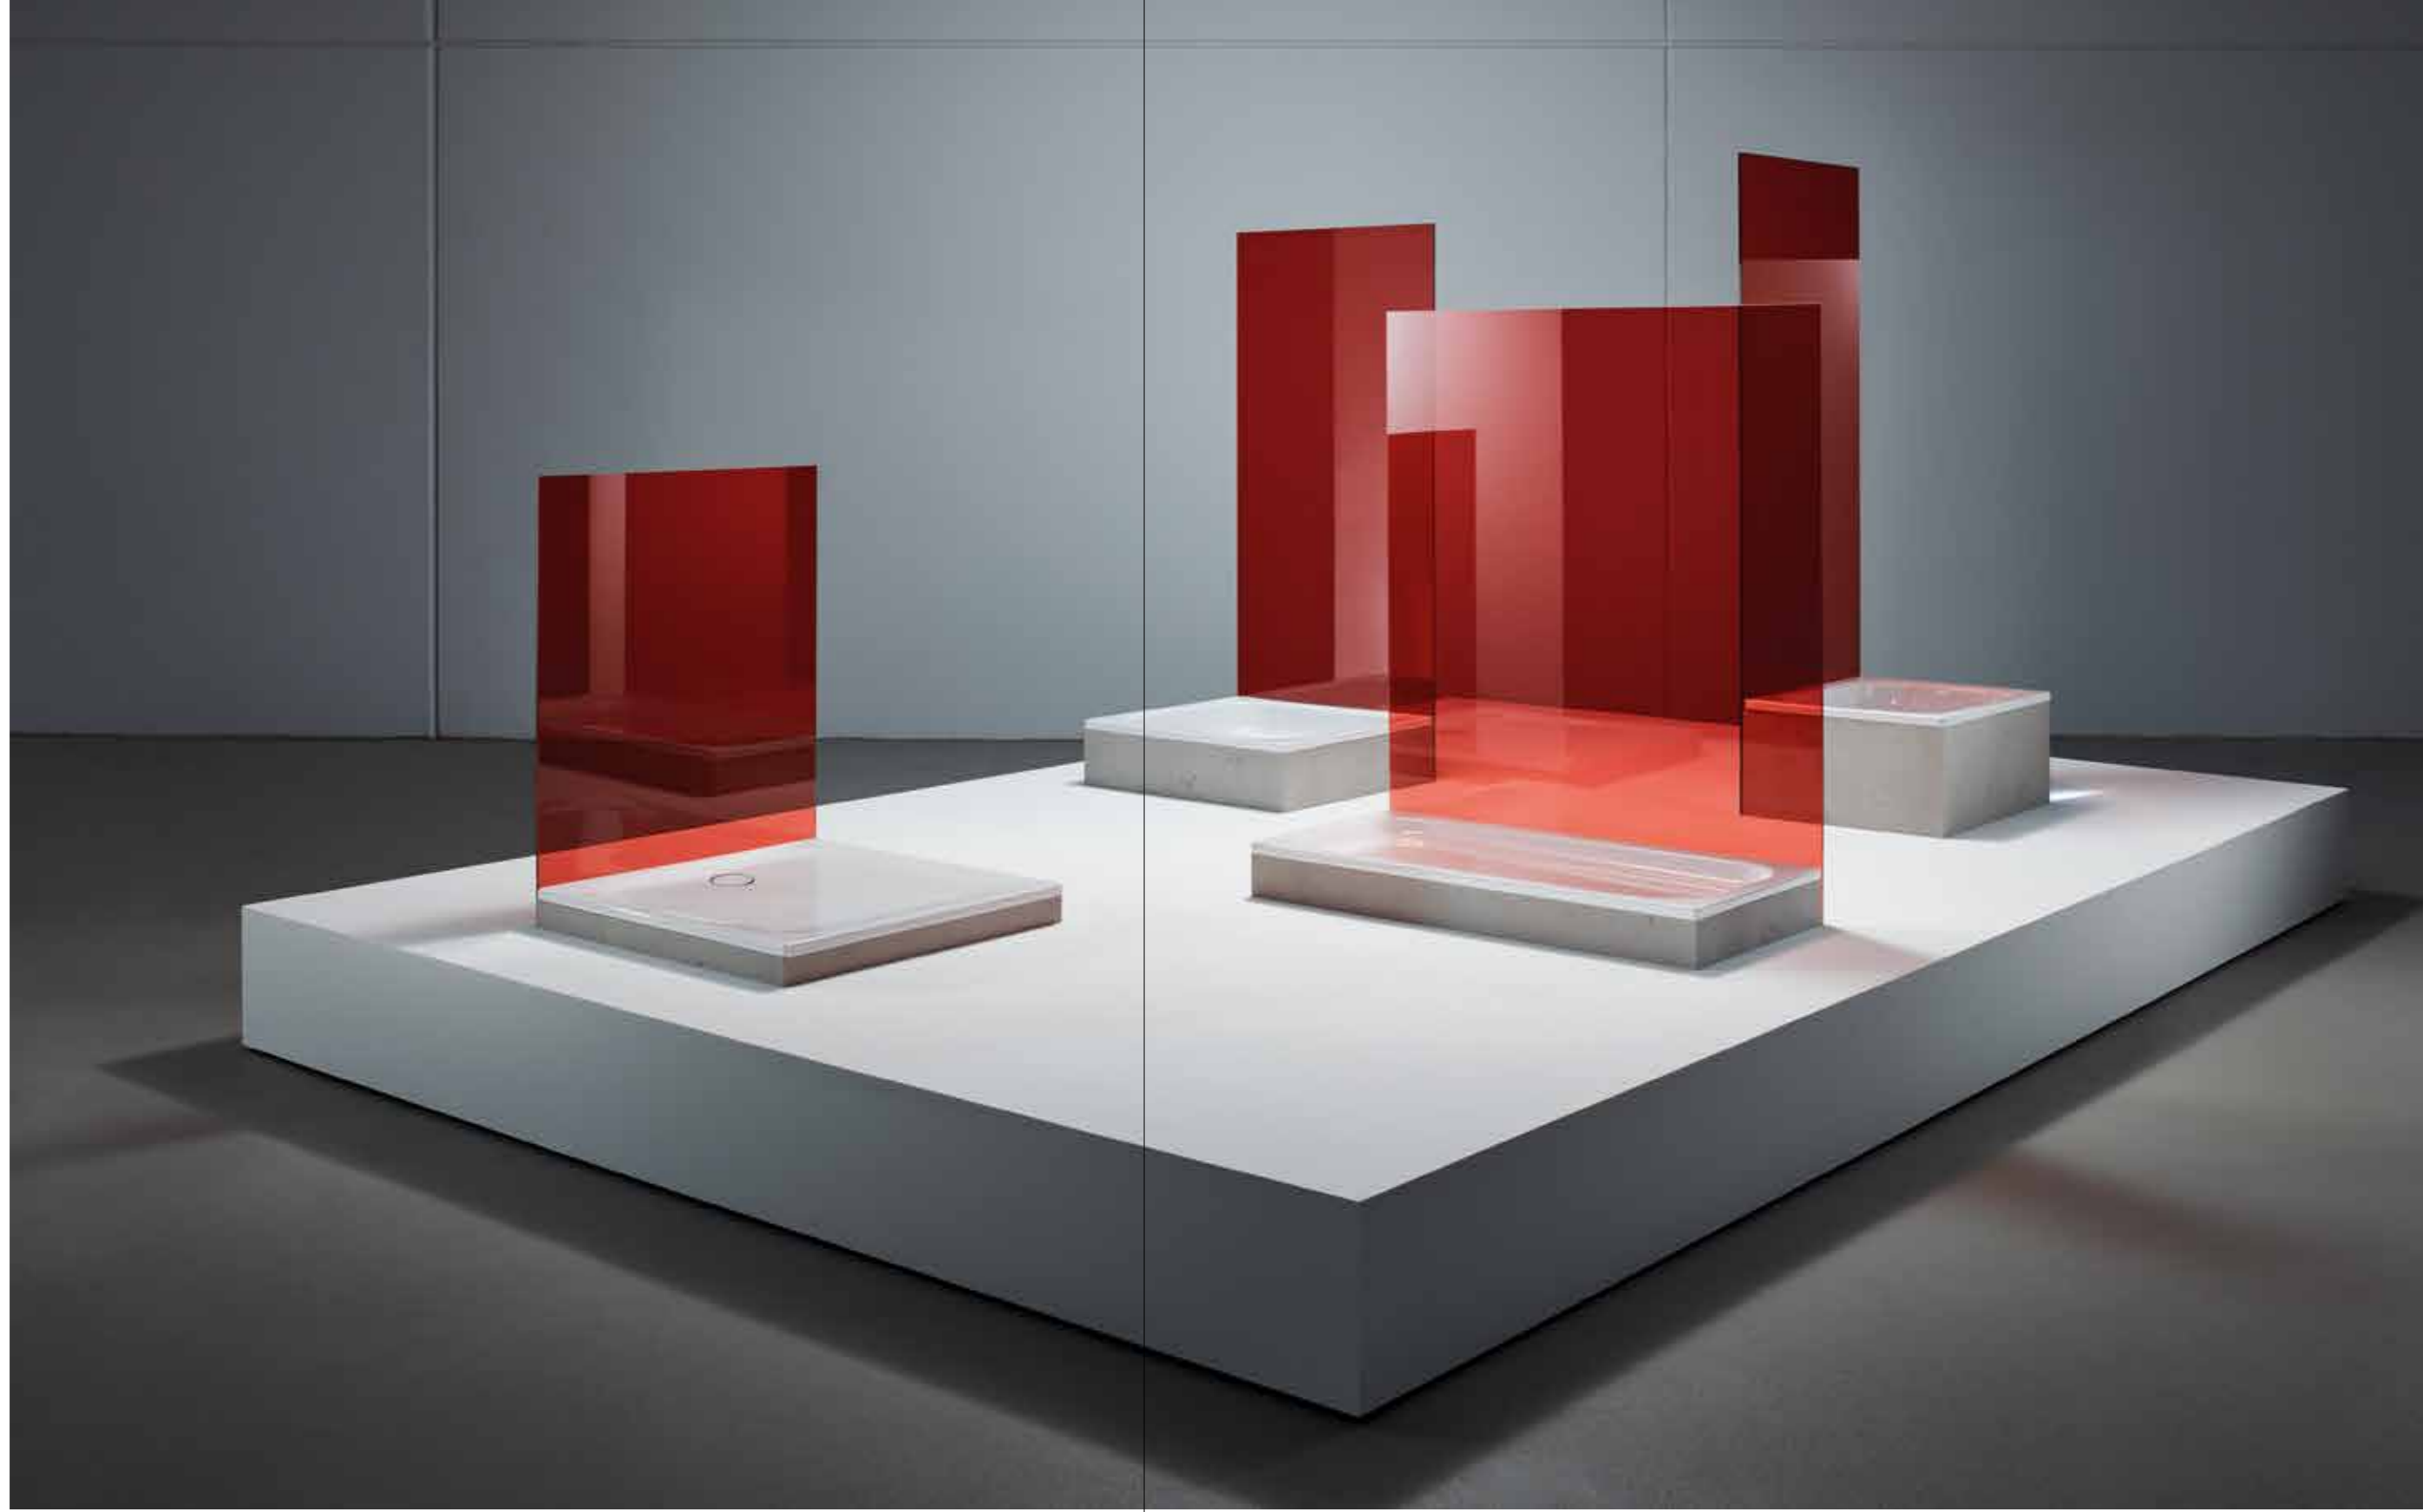

BetteFloor Side Design: Tesseraux + Partner

Variety and dimensional freedom – Bette shower trays are comfortable, beautifully shaped, and simply perfect in every detail. Its tremendous variety of dimensions and the range of designs and colours open up freedom for any bathroom design. Whether ultra-flat or generously deep, Bette shower trays are the perfectly hygienic solution with reliable connections to the building shell.

Glossy colours—our extensive range of standard colours for all baths, showers and washbasins. Choose from 400 classic and contemporary sanitary colours.

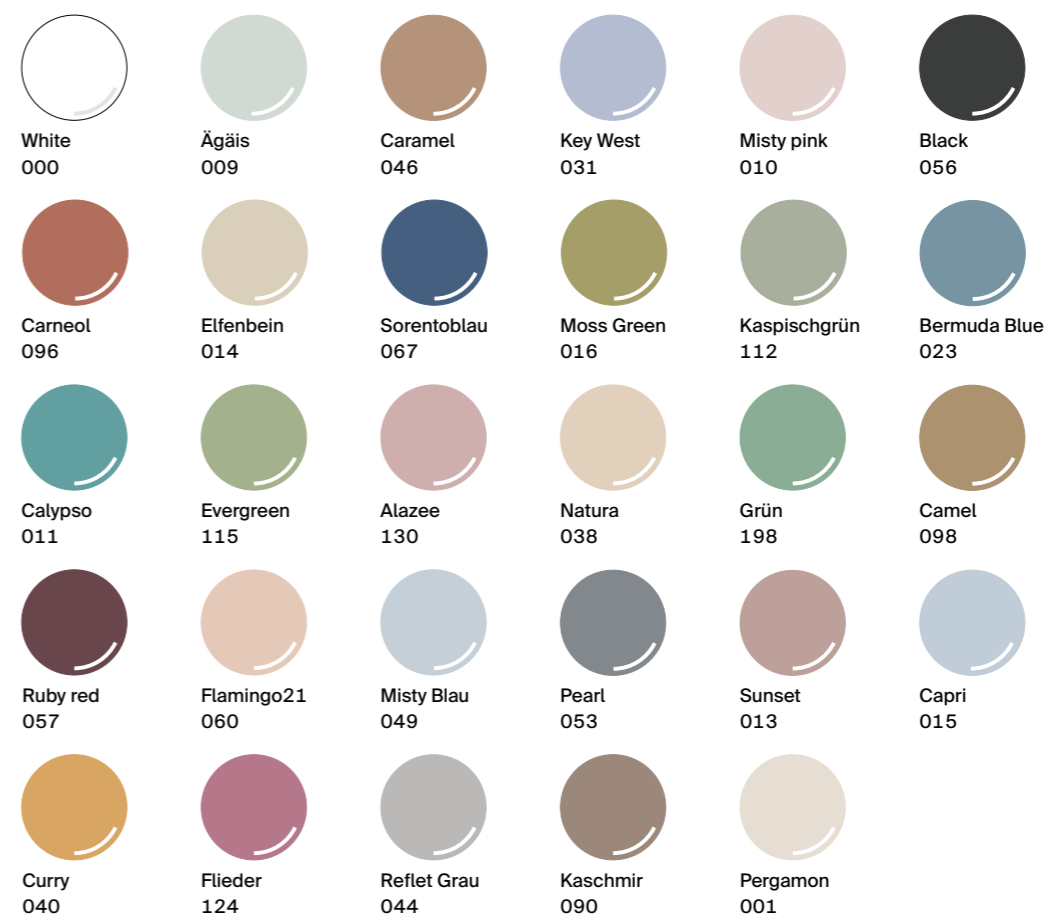

Matt colours—for the perfect colour match of shower areas and flat shower trays with the colour of the floor, and tone-in-tone washstand designs. The 22 matt colours are aligned to the colours of natural stone, wood, tiles and concrete.

Effect colours—luxurious, shimmering eye-catchers. We offer the colours Blue Satin and Midnight for baths, shower and washbasins. Daylight and Forest glitter exclusively for the Craft washbasin shell.

Bicolour—the play with contrasts for baths with a shaped panel, free-standing or wall-mounted. The bath is glazed in a shining white on the inside, and optionally in glossy black, matt black or glossy violet on the outside.

**Made in
 Germany**

We combine high-tech and craftsmanship in the production of our bathroom elements. All our products are made in Delbrück in Germany from natural materials. The glazed surface is exceptionally glossy, extremely easy to clean, and completely hygienic. Premium quality we guarantee for 30 years.*¹

Glazed titanium-steel—We achieve the special evenness of our bathtubs, shower surfaces and washbasins using a wet-in-wet enamelling technique we've been perfecting for decades. The procedure permanently binds three ultra-thin layers of our special enamelling formula to the titanium-steel carcass in two firing steps at 850 °Celsius. The purely natural material created thereby unites the freedom of form granted by steel with the optical, haptic and hygienic properties of glass. Its vast internal flexibility ensures the reliability and durability of Bette products.

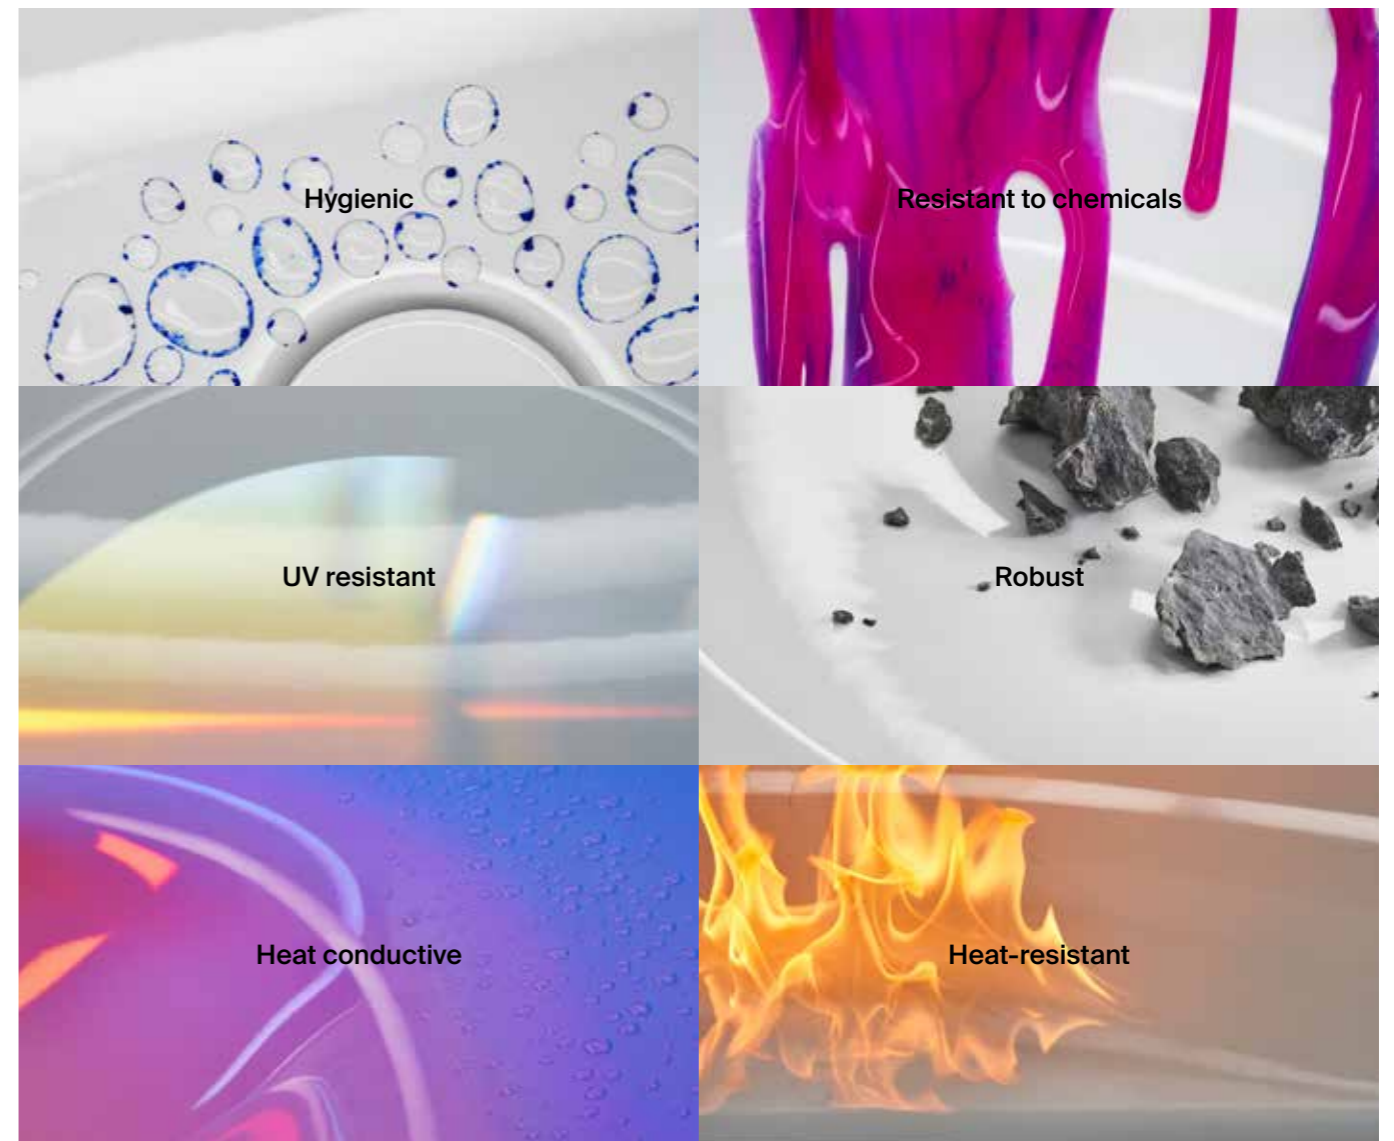

Flawless and harder than marble.

BetteAnti-Slip Sense

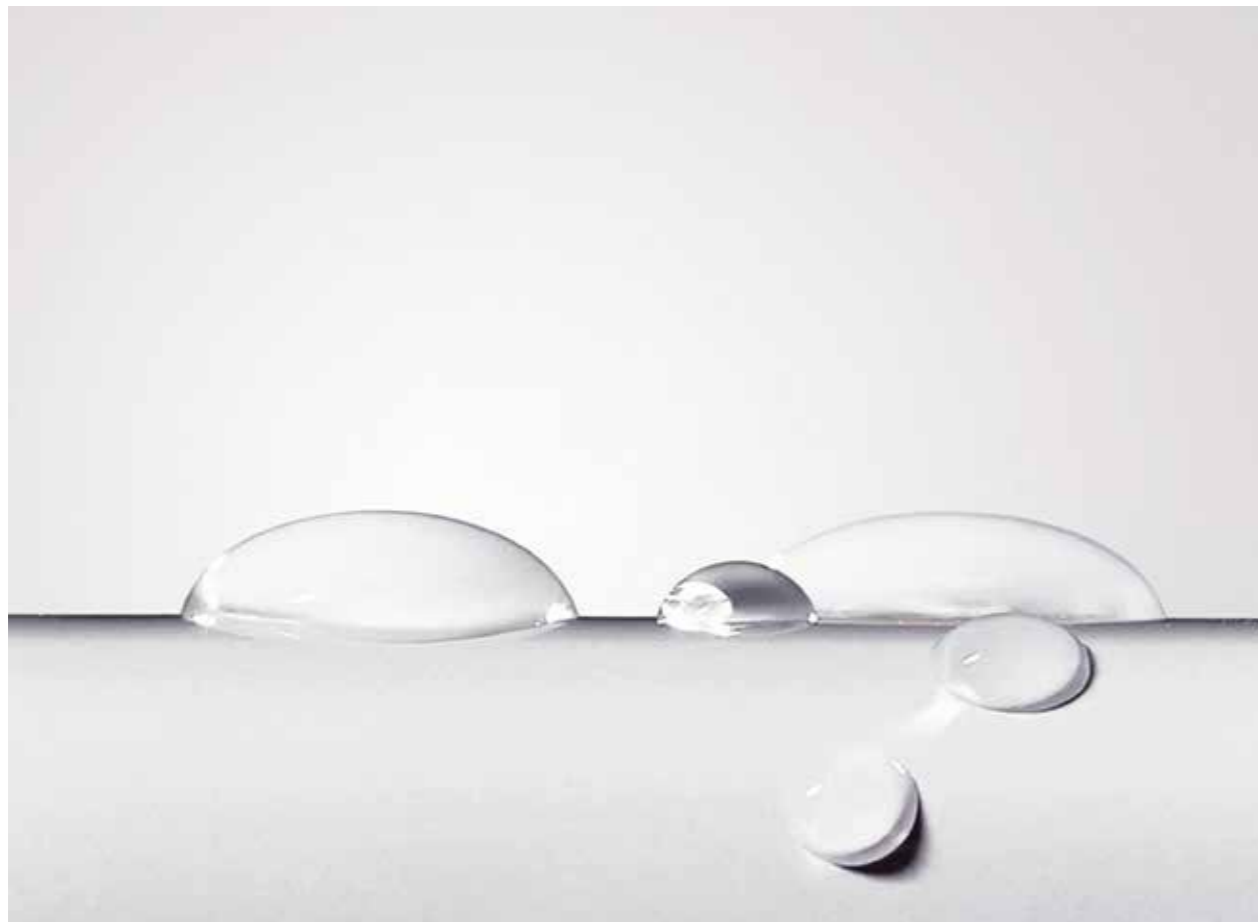

BetteAntirutsch Sense – BetteAnti-Slip Sense is our latest evolution in slip resistance. Hidden in micro particles, the friction effect is only activated on contact with water. When dry, you will not notice any difference in the look or feel of the bath or shower. So BetteAnti-Slip Sense blends harmoniously with the rest of the bathroom. Rated with the highest rating group C to DIN EN 16165 - Annex A (tested by TÜV Rheinland LGA Bautechnik GmbH, according to test certificate BTV 23V30036-01). Cannot be combined with BetteGlaze Plus.

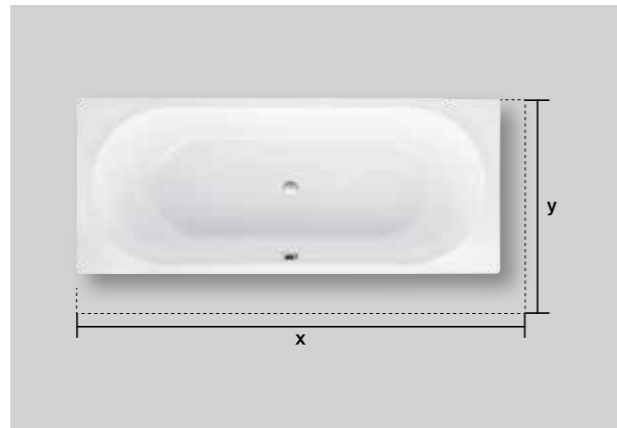

BetteAnti-Slip Pro

BetteAnti-Slip Pro—Virtually invisible anti-slip system: The BetteAnti-Slip Pro surface ensures an even greater level of safety with its DIN-certified anti-slip system. The system can be easily tailored to individual needs and design specifications. The BetteAnti-Slip Pro system does not impair the appearance and functional properties of BetteGlaze® in any way.

Grip Anti-Slip Pro
R10 DIN 51130
DIN 51097 Group B

BetteGlaze® Plus

Special-Size

BetteGlaze® Plus—An extra touch of sophistication for the surface, applied after the final firing. Baths, basins, shower areas and shower trays are coated with a transparent polymer film. The film is water-repellent, allowing droplets to roll off more easily and reducing deposits, which makes cleaning easier. Simply wipe with a damp cloth. No need for strong cleaning agents, saving time and helping our environment.

Special-Size—A few centimetres sometimes make the world of difference in bathroom design, especially when space is tight or an existing property is being renovated. We make planning easier with made-to-measure baths and shower trays. The titanium steel cast is precisely

BetteMono

BetteRelax

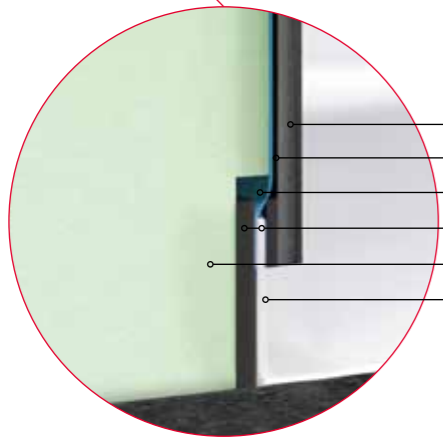

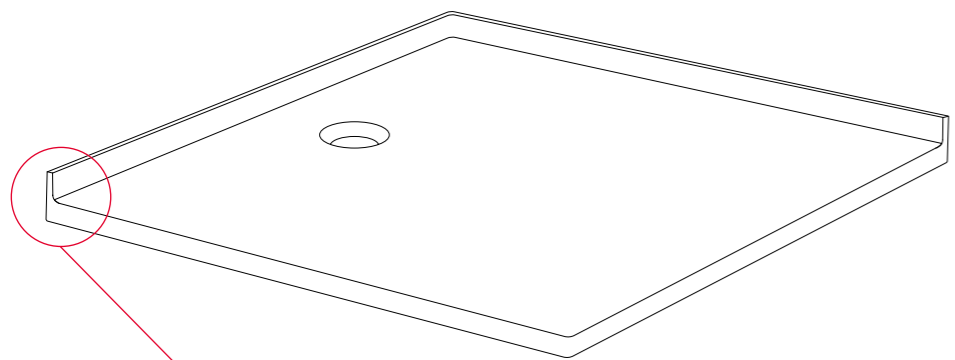

Spring Tap

BetteMono— With BetteMono you get for the first time a waste and overflow set made of the same high-quality material as your Bette bath: glazed titanium steel. BetteMono is available in many of our colours. BetteMono thus creates a harmonious appearance in your bathroom. You open and close the BetteMono waste with a click valve. The overflow is discreet thanks to the same material and colour.

BetteRelax—Ergonomically shaped pillow for a pleasant lying comfort. The flexible material adapts to any bath shape. An integrated magnet prevents it from slipping. Optionally in black or white.

Spring Tap—Many Bette baths can be fitted with the impressive waterfall tap BetteSplash at our works. The 191-mm-wide and 39-mm-high tap is turning a simple bath into something very special.

Silicone-free wall connection—BetteUpstand lets you do away with silicone as a wall sealant around baths and shower trays. The 35-mm-high upward lip on the rim is fixed to the wall when the product is installed and covered over of tile. This 100% maintenance-free connection to the wall not only looks fantastic, but is extremely hygienic, too. BetteUpstand is an optional extra that can be ordered for a large number of baths and shower trays as well as for BetteFloor Side showers.
