

TITANGLAZE

Matt. Beautiful. Stronger.

Our new glaze, TitanGlaze, does not have to shimmer to shine: Its modern matt look is extraordinarily beautiful and extremely durable at the same time. Thanks to ultra-pure, crystalline aluminium oxide, TitanGlaze provides the ceramics with a high-quality finish that is particularly scratch- and impact-resistant. And retains the unique look of your bathroom – to keep it looking as flawless as it did on the first day, for many years to come.

TitanGlaze – the strong surface finish

- + Ultrapure crystalline aluminium oxide enhances the resistance of the glaze
- + TitanGlaze ranks above average in the diamond-scratch and falling-ball tests
- + TitanGlaze thus has special scratch- and impact-resistant qualities

TitanGlaze – the matt surface finish

- + Matt colours are a major trend in interior design
- + The elegant, matt finish is created by adding aluminium oxide
- + Stone White is the first matt colour available in TitanGlaze

Collections with TitanGlaze in Stone White

- + Wide range of ceramics in the premium and mainstream segments: Antheus, Artis, Finion, Memento 2.0, Collaro, Venticello (without close-coupled toilet), Avento wall-mounted toilet incl. seat, bidet and Subway urinal with lid
- + Can be combined perfectly with the wellness range in the colour Stone White: Squaro Infinity and Architectura MetalRim shower trays, as well as selected acrylic baths (e. g. Legato)
- + The Memento 2.0 collection with TitanGlaze is available in Stone White and in the new colours Ebony and Graphite
- + The colour code for ceramics (including CeramicPlus) and wellness is: RW
