## LUA

A design language that has been reduced to the essentials. Clear, geometric lines united in one continuous form, This results in a versatile bathroom programme for private and public architecture alike. With LUA, Toan Nguyen has succeeded in creating yet another stylistic bathroom culture that will be a long-term common denominator. The collection of fittings designed with the same ambition, perfectly shaped bathtubs and the extensive LANI furniture range complete LUA are turned into a true total bathroom solution.

The LUA bathroom collection is accompanied by a comprehensive range of faucets that matches the design language of the other bathroom objects in the series. The slim, simple shape of the water dispensers with the curved spout and restrained lever blends in just as harmoniously with other bathroom collections and makes the LUA fittings a pleasant companion in everyday life.

## LANI

With its slender and timeless design, the LANI furniture series, which is as practical as it is aesthetic, harmonises perfectly with LUA. It can also be ideally combined with other LAUFEN bathroom collections, making well thought-out storage solutions possible for both new and existing bathroom concepts with tried-and-tested washbasin objects. The all-rounder LANI inspires not only with its formal quality - Functional refinements are also built in, creating bathroom furniture that is more than the sum of its components.
